

Follow these 5 easy steps to set up and use your Starlink internet service

1

Unpack Your Kit

- Starlink dish with integrated kickstand and 15 m Starlink cable
- Gen 3 Wi-Fi Router and AC power cable with power supply unit
- Roof rack mount (if applicable)

2

Mount Your Dish

- Set up on open ground with clear sky view or attach to roof rack
- Plug Starlink cable into Port 1 (antenna symbol) on the router
- Plug router into power — light turns white when ready

3

Connect to Wi-Fi

- Connect to Starlink Wi-Fi on your phone or tablet
- Set your network name and password when prompted
- Use the Starlink App to rotate dish if required

4

Connect to Internet

- A solid white light = connected; flashing white = setting up
- No light = no power; red light = no internet (allow 20 min)
- For alignment or signal issues, try elevating the unit (roof mount/pole)

5

Do's & Don'ts

- Mount with a clear 100°+ view of the sky — no trees, poles, or walls
- Use only supplied cables and firmly insert until flush — no sharp bends
- Use Port 1 on router for Starlink, Ports 2+ for your own gear
